DETAILED ACTION

The present supplemental office action corrects an inadvertent error in the previous notice of allowance dated August 6, 2007, as claim 79 has been omitted from the set of claims which examiner indicated as allowable. The correction is made in Notice of Allowability, No. 2; Election/Restrictions; and Reasons for Allowance. Examiner's Amendment stands as indicated in the previous August 6th office action.

ELECTION/RESTRICTIONS

Claims 1, 3, 26, 27, 33, 34, 36, 38, 42-45, 71-74, and 79 are allowable. The election requirement, as set forth in the Office action mailed on September 10, 2002, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The election requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 2, 4-18, 20, 28-32, 41, 46-54, 56, 62-65, directed to vehicles other than lotion formulations, are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

REASONS FOR ALLOWANCE

Claims 1-18, 20, 26-34, 36, 38, 40-54, 56, 62-65, 69-77, and 79 are allowed and renumbered to claims 1-60, previous claim 79 renumbered to claim 19.

The following is an examiner's statement of reasons for allowance:

The terminal disclaimer filed on February 28, 2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Pat. No. 5716625, 5804203, 5958436, and 6139850 has been reviewed and is accepted. The terminal disclaimer has been recorded. Obviousness double patenting rejections as indicated in the previous Office action dated November 30, 2006 are withdrawn in view of the terminal disclaimer.

Claim rejection made under 35 U.S.C. § 102 (b) as being anticipated by Bristow et al. (EP 0346957) as evidenced by Poisoning and Drug Overdose (2004) is withdrawn in view of claim amendment made by applicants. The prior art is directed to a dentifrice composition comprising 3 % of strontium acetate (water soluble divalent strontium cation) in a topically suitable vehicle. The composition does not comprise an irritant ingredient comprising an alpha-hydroxy acid, and examiner takes the position that, since the composition is used for sensitive teeth, there would be no reasonable motivation for a skilled artisan to combine the composition with alpha hydroxy acids, which are conventionally known as keratolytic agents for skin.

Tanaka (US 5470563) also does not anticipate nor does it render the claimed invention obvious, as the reference fails to teach a skin irritation reducing salt comprising aqueous-soluble strontium cation. While Example 5-1 contains strontium sulfide as a depilatory agent, the strontium cation here does not meet the limitation of the instant claim 69, since the prior art uses polyoxyalkylene-modified organopolysiloxane to reduce skin irritation of the depilatory agent. Furthermore, according to evidence provided by applicants, strontium sulfide is a known skin irritant. See Cameo Chemical Data Sheet, Health Hazard.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
